

Data Analysis Protocol

Team: _____

Teacher: _____

Date: _____

The following analysis is based on our team's common assessment of the following essential learnings:

1. Which of our students need additional time and support to achieve at or above proficiency on an essential learning?

How will we provide that time and support? _____

2. What is our plan to enrich and extend the learning for students who are highly proficient?

3. What is an area where my students struggled? _____

What strategies were used by teammates whose students performed well?

4. What is an area where our team's students struggled? _____

What do we believe is the cause? _____

What is our plan for improving the results? _____
